

LEONARD CHESHIRE DISABILITY PARTNERS WITH MIDLANDHR AND ITS iTRENT TECHNOLOGY IN A FIVE-YEAR CONTRACT

Leonard Cheshire Disability has selected iTrent, MidlandHR's single solution for HR, payroll, talent management and workforce planning, to provide a centralised system for over 7,000 employees across 140 separate sites in the UK.

A large voluntary sector provider of care and support services for disabled people in the UK, Leonard Cheshire Disability was looking for a single web-enabled solution for HR and payroll, having previously used an outsourced payroll bureau to manage its complex payroll needs. Philip Thompson, project manager at Leonard Cheshire Disability explains: "Our payroll is extremely complex with a vast number of people with multiple contracts and a high number of TUPE transfers.

We were looking for a system that would allow our entire payroll to be administered in-house. With iTrent, we will be able to configure and define elements of the system to suit our unique and somewhat complicated HR requirements, giving us a certain level of flexibility and control which other leading providers simply couldn't offer us." 

Iain Moffat, managing director of MidlandHR comments: "From the outset, MidlandHR engages with customers at a strategic level to ensure that iTrent fits their exact requirements from now and in the future. From listening to existing not-for-profit customers including The Salvation Army, Oxfam, Shelter, Norwood, Acorns Children's 

iTrent will provide a best practice framework for all Leonard Cheshire Disability's HR and payroll needs, automating administrative tasks and providing the tools and visibility of information to support the organisation.

Hospice Trust and Action for Children, we appreciate the needs of this particular sector. We therefore realise that our flexible approach and iTrent's specialist features are vital in the strategic management of all HR, payroll and talent management needs."

ABOUT MIDLANDHR
